

<u>Date</u>	<u>Make</u>	<u>Model</u>	<u>Pros</u>	<u>Cons</u>	<u>Uses</u>	<u>Other</u>
2017	Getac	F110			DIMA/AIM	
2017	Getac	T800			DIMA/AIM	
2016/17	Panasonic ToughPad	FZ-G1	Light, waterproof, drop proof, great screen resolution and fast.	None yet	DIMA	
J3500 is still being used for 2017 field season	Motion Computing	J3400 (replaced by J3500 then R12)	Bright screen with low glare, light weight, don't have to turn off to change battery, easy access to battery, removable keyboard, stylus is stored within tablet	Some users have experienced problems.	DIMA	
Currently used (2017)	Asus	TF810C (Windows 8)	Very light weight, great screen viewing outdoors, and long battery life.	No longer produced. May find on Ebay or Amazon.	DIMA/NWERN	Relatively inexpensive
	Panasonic	Toughbook			FFI	Expensive
	Panasonic	Toughbook CF-19	Very rugged and dependable in the field plus has attached keyboard.	Heavy because of attached keyboard, which we don't use as much as originally anticipated in part because of it's small size.	DIMA	
	Trimble	Yuma			FFI	Expensive
	Fujitsu	Stylistic ST5111	It has a good outdoor screen and works well all around. Fairly light so caring all day isn't a problem.	Battery life can be problematic and switching batteries means shutting down the computer unless you are near the truck and can plug it in while you switch them out.	DIMA	Need a protective cover like Otter box.
	Fujitsu	Stylistic ST5112		Need to shutdown to change battery. Very dim screen that is highly reflective. A little heavy.	DIMA
